現在募集中の第8回ハンガリー病理解剖トレーニングコースについて、コースディレクターのセメル
ワイス大学 Andras Kiss 教授より下記のメッセージをいただきましたので掲載いたします。今年のコー
スからはセメルワイス大学の新しい施設がオープンし、死後 CT も利用可能になるとのことです。参
加を検討中の方は、ぜひ奮ってご応募ください。

Dear applicants !

The director of the DEPARTMENT OF PATHOLOGY, FORENSIC AND INSURANCE MEDICINE,
Prof. Andras Kiss kindly provided the following information regarding the PMiP 2026 course at
Semmelweis University to be held in August 2026.

The new facility of Semmelweis University, the NOIKK/ACER will open its doors at the end of March
2026. The dedicated post mortem CT will be available in this facility and the Institute of Pathology,
Forensic and Insurance Medicine plans a new addition to the previous course topics.

Post mortem CT and evaluation will be followed by validating autopsy. This novel feature of PMiP is
unique topic worldwide and a high end new addition to the PMiP course.

Sincerely yours,

Andras Kiss

Infrastructure

- 8,150 m² dedicated to surgical education, innovation, and translational research.
- 3 cadaver operating rooms (6 stations each), equipped for simultaneous training and research.
- Hybrid operating theaters for robotic, endoscopic, and minimally invasive surgery.
- CT, imaging, and biomechanical labs integrated with engineering facilities.
- Lecture halls and seminar rooms for theoretical and practical instruction.
